

Triple Fat Ladies

Time Limit: 1.0s **Memory Limit:** 16M
C#: 32M

Pattern Matchers have been designed for various sorts of patterns. Mr. HKP likes to observe patterns in numbers. After completing his extensive research on the squares of numbers, he has moved on to cubes. Now he wants to know all numbers whose cube ends in 888.

Given a number k , help Mr. HKP find the 1st number larger than k whose cube ends in 888.

Input Specification

The first line of the input contains an integer t , the number of test cases. t test cases follow.

Each test case consists of a single line containing a single integer k ($1 \leq k \leq 20\,000$).

Output Specification

For each test case, output a single integer which denotes the 1st number larger than k whose cube ends in 888. The result will be less than 2^{63} .

Sample Input

```
1
1
```

Sample Output

```
192
```
